## Remembering JFK, 60 Years Later, The Assassination and the Investigations

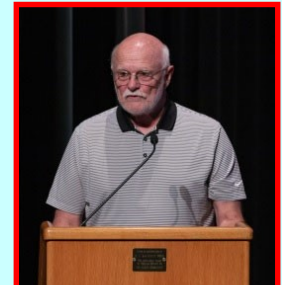

The Ouachita Speaker Series is hosting a 3-person panel and presentation on aspects of the assassination and investigations. President Kennedy was assassinated on Nov. 22, 1963. According to the 1964 Warren Report, the lone assassin was Lee Harvey Oswald, but in 1979 the House Select Committee on Assassinations issued their report concluding that there was a conspiracy to kill JFK. The panel will include Dr. Michael Chesser, Dr. David Montague, and Jeff Meek, each presenting interesting information related to the 1963 murder of the president.

Dr. Michael Chesser, MD

Dr. David Montague, PhD

Jeff Meek, OSS Board Member

- **Dr. Chesser** is one of a few non-military, non-government doctors to have received permission from the Kennedy family to examine JFK autopsy materials, doing so by making 3 visits to the National Archives II in College Park between 2015 and 2017. He will discuss his findings, which argue against the Warren Commission conclusion of a lone gunman.
- **Dr. Montague** is currently, the associate Vice Chancellor for Academic Affairs at the University of Arkansas at Little Rock and is a tenured Full Professor of Criminal Justice, but in his first career he completed federal investigations for 14 years in law enforcement. He also served on the Assassination Records Review Board (ARRB) as the agency's senior investigator and later as a consultant on national security matters with US Investigations Services, Inc. He will speak about his time on the ARRB.
- **Jeff Meek** will give a short presentation relating to Lee Harvey Oswald and the tentacles of intelligence agencies that surround him.
- Jeff will then moderate a panel discussion with both Dr. Chesser and Dr. Montague and then will welcome questions from the audience.

**WOODLANDS AUDITORIUM**  
1101 DeSoto Boulevard  
Hot Springs Village

For entry into the Village, use only the East or West Gates and show your ticket, email confirmation, or event flyer to receive your visitor pass
